SECTION 03

Before you do anything

Don't respond. Don't try to join the group. Don't contact anyone about it. Every one of these is a common first instinct, and every one of them tends to make the situation worse rather than better.

SECTION 04

Your options from here

A consultation walks you through what's realistic for your specific post — whether it breaks the platform's rules, whether you own the photo and what that gives you, and where the legal line genuinely falls. Or stay ahead of anything new with monitoring.
